HIGH CLEARANCE BED KNIFER

HIGH CLEARANCE BED KNIFER

This slide is sold in two basic configurations. **Configuration one is a double 4x4 bar** with a single 4x4 bar topmast. The top runs directly over the front lower bar going the full length of the bottom bar. The spacing between the two lower bars is 20 inches. **Configuration two is a triple 4x4 bar** with a single 4x4 diamond bar centered over the middle 4x4 bar. The spacing between the first and second bar is 20 inches. The spacing between the lower second bar and the third bar is 20 inches also. The three point hitch on both configurations are offset to the front of the slide to allow extra clearance between the slide runners and the tractor tires.

The slide runners are extra heavy duty and are made of 1/2" x 10" steel. The runners are set up for rod weeder accommodations of holes for knives and holes in the front of the runner for direct bolting of a sweep foot piece and holes in the rear of the runner for both items.

1. **Double 4x4 bar with flat 4x4 top mast, three point hitch and slide runners:**

PART NO.	DESCRIPTION	LENGTH	WEIGHT
